PROFILE

Graduate with a Bachelor's of Science in Cognitive Science with a Specialization in Human-Computer Interaction and a minor in Design from the University of California, San Diego. My interest in design is rooted in efficiency and simplicity. I am hard-working, versatile, honest, and a great team player. I set high expectations for myself and it shows in my work. I am seeking opportunities to work for a company that cares about it's users and wants to improve upon their everyday experiences.

SUMMARY OF QUALIFICATIONS

- A goal-oriented, analytical and intuitive problem-solver.
- Quick and adaptable in any given situation.
- Studious and eager to absorb as much knowledge as possible.
- Punctual, especially when it comes to meeting deadlines.

EXPERIENCE

UX/UI Designer and Web Developer
LC Spa - UCSD

2018 - 2018

Worked with a local client to rebrand, redesign, and develop their website. Walked the client through the entire design process and took in input and requests to build them a site that would give them more credibility across the web. Conducted user research, competitive analyses, coded site using HTML, CSS, and Bootstrap.

UX/UI Designer
Vroombox - UCSD

2017 - 2017

Created wireframes for a music app designed to ease the mental load of drivers. Our group of four went through the entire human-centered design process and created a final prototype posted on Invision. Conducted interviews, generated competitive analyses, and developed the entire user flow of managing a playlist.

EDUCATION

University of California, San Diego

2014 - 2018

Bachelor's of Science in Cognitive Science with a Specialization in Human-Computer Interaction and a minor in Design.

PROFICIENCIES
